

Warm Greetings This Holiday Season!

2009 marked Eureka's 150th Birthday and the publication of my first book of photography--**A Natural Sense of Place**. This collection of images and personal reflections celebrates the local natural landscape. The camera lens teaches me that wonder and beauty can be found right in our backyards and my hope is that each image I develop for book, cards or calendars will kindle your sense of wonder.

My book, notecards, and new 2010 calendar will be available at these upcoming holiday shows, at Mika's Coffeehouse and at the Eureka College Bookstore in Cerf Center.
